

The sustainable transition at UNIL

How do you feel about it? (3 keywords)

Do you have concerns? What are its downsides or weaknesses?

What obstacles do you see for you and your group on this path?

What are its strengths and positive effects (besides footprint reduction)?

Which of these sentences best reflects your attitude?

1. I don't want any sort of change, whether it is in my routine or at the University level
2. I am ok with changes at the University level, as long as it doesn't impact my routine
3. I am willing to adjust my routine, as long as I am given guidelines
4. I am willing to adjust my routine, including going beyond provided guidelines
5. I am willing to invest time and energies to contribute actively to the Transition
6. I don't really care
